

## SPEC SHEET

LED Pre-Wired Class 2 Driver 60W 12VDC

**STVOFL63E-C2**

- Efficient and reliable switching driver
- Class II Double Insulation
- UL Listed, CE and FCC approved
- High efficiency, Long life and high reliability

### Description

This regulated LED Pre-Wired Class 2 Driver is ideal for powering all of your LED lighting applications. The ultra low profile design allowing you to conceive it in small spaces or recessed.

This LED driver convert the AC input voltage to 12VDC output. By means of the male DC plug on the output side of the driver, it allows you to easily connect power to your 12V LED Tape Light or Puck Light Kit.

Our LED Pre-wired Driver is truly Plug N Play. While the driver is rated to accept maximum load for optimum performance, we recommend that you derate your driver by 20% through eliminating all error of overloading or overheating.

The simple formula  $\text{Driver Load} \times 0.8 = \text{Recommended Driver Wattage}$  should be applied for optimum lighting performance which accounts for environmental factors such as power surges and temperature fluctuations.

### Specifics:

<b>Input:</b>	100-240VAC
<b>Voltage:</b>	12V/5A DC
<b>Wattage:</b>	60w
<b>Size:</b>	4.45" W x 2" D x 1.25" H
<b>Power Method:</b>	Pre-Wired
